There is a cost associated with being on a team. If that cost is prohibitive please see the coach and we will make other arrangements. No one will be denied access due to financial reasons.

Rep Teams: Rep programs are intended for athletes who are committed and serious about playing basketball at a competitive level. It is very difficult to play competitive basketball and another competitive sport. Valhalla basketball is considered the priority sports commitment for our players. Players are expected to put rep basketball ahead of any other team sport. School work / activities always take precedence over rep basketball.

Your child will have the opportunity to develop skills of passing, shooting and dribbling, footwork and rebounding. Skills will be reinforced through practices and game play throughout the season. We strive to promote and foster the love of the game, team work, respect for oneself and for others.

Good Luck!!
